

## BLOOD FLOWING FREELY IN AFFLICTED RUSSIA

**Roughs and Radicals  
Cause Endless Armed  
Conflicts.**

### JEW BEARS THE BRUNT

**Police in Many Cases Unite  
With Thieves to Plun-  
der Houses.**

St. Petersburg, Nov. 2.—The imperial decree creating cabinet ministers under the imperial manifesto granting a constitution to Russia was gazetted this morning and has already aroused criticism, as the machinery is extremely complicated and smacks of the old-fashioned bureaucratic regime. The relations of the cabinet to the council of the empire, or upper chamber, and the imperial duma, or popular cabinet, are not yet clear because the powers of these bodies are yet to be defined under the manifesto.

**Features Unsatisfactory.**  
Two features are especially unsatisfactory. While the cabinet has not authority to decide matters within the competency of legislative bodies, no measure of "general importance" can be introduced into the chambers without the sanction of the cabinet, and another provision required is that when the cabinet is unanimous the premier must go to the emperor to receive instructions. This would seem to make final authority go back to the emperor.

**Army and Navy Excluded.**  
Moreover, all questions affecting the imperial court and the domains of the army, navy and foreign affairs are specifically excluded from the competency of the cabinet without direct imperial authority.

By implication these great questions in which the nation is vitally interested, are outside of the competency of the legislature, and therefore bound to prove unsatisfactory.

**Strike Leaders Give Up.**  
St. Petersburg, Nov. 2.—Prospects of the country quieting down for the present at least are much brighter today. Students, social democrats, and strike leaders here in St. Petersburg, finding they will soon be in the minority, have made a virtue of necessity and have declared the strike off, beginning tomorrow. Leaders of the railroad men, have not yet formally surrendered, but trains are already running on the Moscow and other lines and the backbone of the strike seems broken.

**Thirty Dead at Warsaw.**  
Warsaw, Nov. 2.—Thirty persons were killed and over 100 wounded during conflicts here last night. The military governor had walls covered to day with proclamations announcing as a consequence of yesterday's disturbances, crowds assembling in the streets will be dispersed by force of arms.

**Traffic Stopped.**  
Warsaw, Nov. 2.—Restaurants closed at noon and traffic stopped. Despite the governor's proclamation, immense patriotic processions, gathered in various parts of the city during the afternoon, paraded the streets, headed by Catholic priests.

**Socialists Attack Patriots.**  
Warsaw, Nov. 2.—Infantry fired on a crowd of demonstrators this afternoon. Two persons were killed and seven wounded. Socialists are attacking patriotic processions.

**"Loyalists" Kill and Rob.**  
Odessa, Nov. 2.—Anarchy is rampant here. Killing and plundering by bands formed of hundreds of loyalists continued this morning. Attacks on the Jews are incessant. The night was made hideous "loyalists," with whom the police are fraternizing, marching through the principal streets bearing national flags, portraits of the emperor and icons, singing the national hymn and smashing everything in their way, looting shops and houses. Hospital wagons passed through the streets incessantly, carrying killed, wounded and mutilated. The population is panic-stricken.

**Clergy as Peace-makers.**  
Rostoff-on-Don, Nov. 2.—The town is today in the hands of rioters who are plundering by wholesale. Firing is frequent in the streets. Many persons were killed or injured. The clergy left the churches in the attempt to pacify the rioters, but the efforts have been unavailing.

**Woodshed in Rostoff.**  
Rostoff-on-Don, Nov. 2.—A crowd of 20,000 persons gathered in the prison square yesterday and demanded the release of the political prisoners. In response 22 men were released, but the more important prisoners were retained in custody. The demonstrators were then dispersed by the troops. A number of persons were killed or

### ANOTHER CLEW IN CASE OF JACOB H. THOMPSON

**Negress Gives Important Testimony  
Against Dead Colored Bell  
Boy.**

New York, Nov. 2.—Further light on the recent mysterious murder of Jacob H. Thompson, exchange editor of the New York Times, has been obtained by the police. When Mamie Gibson, the negress who knew the colored bell boy, Richard Hannibal, who died while under suspicion of committing the murder, was arraigned in court, she said that Hannibal told her that if she was ever questioned about the murder she must say that Hannibal spent the night of Thompson's death at her house. He was not there that night, the girl testified. She said that the bell boy told her that he did not murder Thompson, but that he ought to have been murdered because of the small tips he gave.

### W. C. T. U. INAUGURATE A MICROBE CRUSADE

**Decide to Use Flags Instead of Hand-  
kerchiefs for Chautauqua  
Salute.**

Los Angeles, Cal., Nov. 2.—Because they believe disease germs are spread by waving handkerchiefs in the chautauqua salute so dear to all gatherings of women, the W. C. T. U. has decided to abolish that feature of their meetings. Hereafter individual flags of red, white and blue will be carried by each delegate and these will replace the handkerchiefs in the salute. The business sessions of the convention ended last night, when the state presidents were guests of honor. The delegates will remain in California several days before leaving for the east.

wounded and the Jewish shops were sacked.

The employees of the Vladikavkaz railroad have joined in the strike.

**Conditions Grave.**  
London, Nov. 2.—Special dispatches to this morning's London newspapers represent the condition of affairs in Russia as being extremely grave, especially in the provinces. St. Petersburg, the dispatches say, remains comparatively quiet. Late last night the streets of that capital were patrolled by strong forces of gendarmes and Cossacks and no further disorders have been reported.

**Outlook in Finland.**  
Helsingfors, Nov. 2.—All the official buildings fly the red flag and the Finnish national ensign. The police department is in the hands of the national guard, part of which has been armed by the Russian authorities. Thousands of reinforcements are reported to be marching from Thushy camp, 15 miles away. Up to the present all is quiet and order prevails, but a conflict is not improbable. The city is crowded with outsiders and numerous meetings are being held for the further discussion of the situation.

**Ends in Rioting.**  
Radom, Nov. 2.—Anti-government demonstrations yesterday ended in widespread rioting. A mob destroyed telegraph poles, burned government property, barricaded the streets, and threw bombs at troops. Soldiers fired volleys at the rioters. There were many victims, both civilians and soldiers.

**Citizens Form Guard.**  
Kazan, Nov. 2.—The city is now under the guardianship of a newly formed citizen militia, consisting of 400 armed students and workmen.

**Governor General Removed.**  
St. Petersburg, Nov. 2.—Gen. Kieff, governor general of Kiev, has been removed from his post. He retains his position as aide-de-camp to the emperor.

**Railways Not Open.**  
Berlin, Nov. 2.—Railway service with St. Petersburg has not yet been restored, and it is not known when travel by rail will be possible.

### TRAIN INCIDENT MAY BE THE CAUSE

**Rumored Shooting of Chinese Woman  
May Have Resulted in Murder  
of Missionaries.**

Chicago, Nov. 2.—Following the recent shooting incident of a Chinese woman by a hunting party of which Admiral Train of the United States navy and his son were members and the indirect result of that affair, information was received yesterday from Leimchow, China, of the massacre of Dr. Eleonor Chestnut of Chicago and Mrs. E. C. Maehle and child and Mr. and Mrs. Peale, all associated with missionary movements at that place on Oct. 28. Enraged Chinamen, fired by racial prejudices, were incited to the murder, and antipathy of the residents of the interior provinces is the contributing cause.

## TAKE OUT TROOPS

**Emperor William Leading Move-  
ment of Powers to Re-  
lieve China.**

### RESULT OF BOXER UPRISING

**America Did Not Participate in Guard-  
ing Peking Road and Has  
Few There.**

Washington, Nov. 2.—The state department has been informed that at the instance of Emperor William steps have been taken to secure the withdrawal of the troops of the allied powers associated in the suppression of the boxer uprising, which were assigned to the protection of the road from Peking to Tien Tsin.

**Power to Police.**  
One of the articles of the treaty which terminated the boxer uprising conferred upon the powers the right to police this road, the purpose being to insure a safe line of retreat from Peking for the diplomats and other foreigners in that capital and thereby avoid a recurrence of the siege of the legations of 1900.

**Has Only 40 Marines.**  
Not all of the powers availed themselves of the permission and America refrained from stationing troops on the road. A small guard of soldiers, however, was stationed at the American legation in Peking and their forces have only recently been relieved by a detachment of about 40 marines.

### BOY BEATS FATHER'S HEAD INTO A JELLY

**Alton Young Man Kills Parent in  
Quarrel Over Appointment of  
Conservator.**

Alton, Ill., Nov. 2.—During a quarrel last night which involved all the members of the family, Leonan Aller was killed by his son, Frank, 18 years old, the boy beating his father's skull into a jelly with a rolling pin. The trouble arose over the appointment at the boy's request of an East St. Louis attorney to act as his guardian and the custodian of an \$8,500 judgment affirmed three days ago by the supreme court. The boy had lost his left foot in an accident on an interurban car line and the judgment was the result of a suit for damages.

According to a statement by the boy's mother, Aller had followed his son from place to place protesting against the appointment of a guardian and the fatal quarrel finally resulted.

### SHERIFF BARRETT DOOMED

**No Hope of Recovery of Cook County  
Official.**

Chicago, Nov. 2.—Sheriff Thomas E. Barrett, of Cook county, according to a statement issued by his physicians, may die at any moment and at the utmost can not live over two years. For several months Mr. Barrett has been suffering from a cancerous growth in his throat, and last week it was found necessary to remove him to a hospital for treatment.

The passage in the throat having become completely closed, the surgeons last night made an opening in the stomach, and inserted a tube through which liquid foods will be given the patient. Mr. Barrett's condition last night was reported as serious.

Y., manufacturers of Jell-O, known as America's most popular dessert, and Jell-O ice cream powder. Both products have also been approved by the pure food commissioners. This company's exhibit in the agricultural building was probably the most popular one at the Portland exposition.

## POLITICAL BOSS CAUSE

**W. H. Andrews, Leading  
Republican, Ruined  
Clark.**

### ALLEGHENY BANKER

**Dead Man Left a Note to Fam-  
ily Which is Made  
Public.**

Pittsburg, Pa., Nov. 2.—T. Lee Clark, former cashier of the Enterprise National bank, who committed suicide when confronted with the revelation of a \$300,000 shortage in his accounts, in a letter written just before his death and made public last night, lays the blame for his ruin upon W. H. Andrews, territorial delegate from New Mexico and republican leader.

**Found by Daughter.**  
The letter, written in pencil on one of the bank's letterheads, was found in the dead man's room by his 14-year-old daughter and turned over to his attorneys. The bank was closed by the controller of the currency the day following Clark's suicide, Oct. 19, on advices from Examiner Cunningham.

The letter to his wife is not the statement alleged to be in possession of the federal authorities. That one, friends of the deceased cashier say, was to the government authorities, but its existence has been vigorously denied.

### Treasurer of Road.

Clark was treasurer of the Santa Fe Central railroad, of which W. H. Andrews was president. This road is in New Mexico and is about 117 miles long, running from Santa Fe to Torrance, with a branch now projected to Albuquerque. The railway was capitalized at \$2,500,000 and is bonded to the extent of \$2,500,000. Of this, \$2,000,000 of bonds has been issued, while \$500,000 has been kept in the treasury for improvements.

One week after the closing of the Enterprise National, Examiner Cunningham brought suit against W. H. Andrews for more than \$50,000, charging him with fraudulently conspiring with F. R. Nicholls, his private secretary, and T. Lee Clark, the dead cashier of the bank, unlawfully to procure funds by the proceeds of negotiable paper.

## EVIDENCE ISSUE

**Trial of Baron von Kutzleben at  
Marengo Halted by  
Arguments**

### OVER ADMITTING CONFESSION

**Attorneys for Rock Island Train  
Wrecker Object on Ground of  
Insanity.**

Marengo, Iowa, Nov. 2.—(Special).—Whether to admit as evidence for the state the signed confession of Baron von Kutzleben to the wrecking of the Rock Island passenger train at Homestead in March was the principal question before the district court which is hearing the case today. At noon the jury was excused and the attorneys made their arguments.

**Confession Verified.**  
The defendant's confession was complete and was further verified by the finding of the wrench and drawbar with which the rails had been removed to throw the train over the bank in the sand of Bush Run, a creek near the scene, where von Kutzleben had said they were hidden. This was testified to this morning and it was here the question of admitting the confession arose.

The defense maintains that the confession is not proper evidence because of von Kutzleben's alleged insanity.

## OCTOBER ON FARM

**Bulletin of Department of Agri-  
culture for Illinois Shows  
Conditions.**

### SLIGHTLY COLD AND WET

**Cripping Corn in Full Blast With  
Generally Favorable Re-  
ports.**

The United States department of agriculture special crop bulletin for the month of October, 1905, shows the first killing frost of autumn occurred on the morning of the 12th. It extended through the northern and central districts, but corn was fully matured and no damage ensued. The average temperature for the month was slightly below normal. Precipitation was generally above the seasonal average. In portions of the southern district excessive measurements were recorded. Farming operations were interrupted by rains, but good progress was made in husking corn and fall plowing. The soil generally holds ample moisture, and in many localities of the northern and central districts fall plowing is completed.

### Corn Reports Favorable.

In the northern district husking and cribbing corn are in active operation. Reports are uniformly favorable with regard to the yield and quality of the grain. Some correspondents remark that the produce is the best in years. In the central and southern districts the output is generally good, but many reports indicate a yield below expectations. In all sections many fields have been prostrated with high winds, and with wet weather much damage will ensue. Shelling has begun in several localities.

The present outlook for wheat is most favorable, an adverse report being the exception. The plant is healthy and vigorous, and has attained a good start to withstand the rigors of winter. An increased acreage is indicated. Meagre reports show a good condition of rye.

### Pastures Poor in North.

Pastures are mostly short and dried out in the northern district, but maintain a good condition for the season in the other districts. Live stock is healthy and will enter winter under favorable conditions. Isolated cases of swine plague are reported.

Apples are scarce generally, and a total failure in some localities. The fruit is mostly small in size and of inferior quality. The crop is gathered, but does not seem to be keeping well. The potato output is much below the average yield.

This was drilled to a depth of 120 feet and a pressure of 40 pounds to the square inch was secured. The last well is said to be better than either of the other two. A test of the gas in all three is to be made this evening, when all will be lighted and are expected to illuminate the country for miles around. Members of the Muscatine city council and others are to go to the gas fields to witness the tests. Other wells will be drilled at once, each being capped to prevent waste as soon as completed.

It is one of the most sensational whitecappings Louisiana has ever known. All news of the murder was suppressed three days, although Kenner is within 12 miles of New Orleans.

Stella Smallwood, a negro woman, was killed outright and four men badly wounded, the whites shooting into a social gathering of blacks at Andrew Jackson's home.
